Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Within 4 Days

Specimen Required: Blood

Price- ~~₹2000~~ **₹1250**

Parameters Included

About This Test

A measurement of 72.4 alone is not specific enough to determine what it represents, as it could relate to various contexts. For example, in a medical setting, it could refer to a lab test result, such as glucose level, cholesterol level, or body temperature. In other contexts, it might indicate a score, measurement of length, or other units. Clarification of the context or the specific test or metric being referred to is needed to provide an accurate explanation.
