ANTI PHOSPHOLIPID ANTIBODY-(APL) - IGA

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Within 7 Days

Specimen Required: Blood

Price- ~~₹850~~ **₹590**

Parameters Included

About This Test

An Anti-Phospholipid IgA (aPL IgA) test measures the presence and concentration of IgA antibodies against phospholipids in the blood. Phospholipids are a type of fat molecule found in cell membranes, and the presence of antibodies against them can be associated with autoimmune disorders, particularly antiphospholipid syndrome (APS). Here are the key aspects of what an aPL IgA test measures: 1. **Detection of IgA Antibodies**: Identifies IgA antibodies that target phospholipids, which can indicat an abnormal immune response where the body's immune system mistakenly attacks its own tissues. 2. **Diagnosis of Antiphospholipid Syndrome (APS)**: Helps in diagnosing APS, a disorder characterized by recurrent blood clots (thrombosis), pregnancy-related complications (such as miscarriages, stillbirth, and preeclampsia), and other clinical issues. APS can be primary or secondary, often associated with other autoimmune diseases like systemic lupus erythematosus (SLE). 3. **Risk Assessment f Blood Clots**: Elevated levels of aPL IgA can indicate an increased risk of developing blood clots, both in veins (venous thrombosis) and arteries (arterial thrombosis). 4. **Monitoring Disease Activity**: In patients with known APS or other autoimmune conditions, aPL IgA levels can be monitored to assess disease activity and response to treatment. In summary, an aPL IgA test is used to detect autoimmune antibodies against phospholipids, aiding in the diagnosis and management of conditions like antiphospholipid syndrome, and assessing the risk of thrombosis and other related complications.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable

**Fasting 10–12 hrs essential | *Limited Period Offer | *Reports within Within 7 Days*
