

# IGF3- INSULIN LIKE GROWTH FACTOR 3 - IGF3

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Within 5 Days

**Specimen Required:** Blood

Price- ₹5200 **₹3849**

## Parameters Included

### About This Test

IGF-3, or Insulin-Like Growth Factor 3, is a protein involved in growth and development. Although less commonly discussed than IGF-1 and IGF-2, IGF-3 is implicated in modulating the effects of growth hormone and other IGFs in various tissues. It is part of a larger group of insulin-like growth factors that influence cellular processes. The IGF-3 test measures its concentration in the blood, providing insights into growth and development issues, though its clinical use is less established compared to IGF-1 and IGF-2.
