THYROID PROFILE PLUS

Profile Details | 4 Parameters

Fasting: Overnight fasting for 9-12 hours | Report Time: Next day

Specimen Required: Blood

Price- ₹2999 **₹1299**

Parameters Included

- TSH THYROID STIMULATING HORMONE
- Anti TPO Anti Thyroid Peroxide Antibody -AMA

- FT3- F Triiodothyronine
- FT4 F Thyroxine

About This Test

FT3 (Free Triiodothyronine) and FT4 (Free Thyroxine) are active thyroid hormones crucial for metabolism. TSH (Thyroid-Stimulating Hormone) regulates thyroid hormone production. Elevated TSH suggests hypothyroidism, low TSH indicates hyperthyroidism. Anti-TPO (Anti-Thyroid Peroxidase Antibodies) indicate autoimmune thyroid diseases like Hashimoto's thyroiditis. Monitoring these markers aids in diagnosing and managing thyroid disorders effectively.
