

# VDRL TITER- RPR FOR SYPHILIS -QUANTITATIVE

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Same Day

**Specimen Required:** Blood

Price- ₹650 **₹295**

## Parameters Included

### About This Test

The VDRL (Venereal Disease Research Laboratory) titer measures the concentration of antibodies in the blood that are produced in response to syphilis, a sexually transmitted infection caused by the bacterium *Treponema pallidum*\*. This non-treponemal test detects the presence of reagin antibodies, which are not specific to syphilis but can indicate its presence. A VDRL titer helps determine the level of these antibodies, aiding in diagnosing syphilis and monitoring the effectiveness of treatment.

**98% On-Time Reports**  
Available 24x7

**100% Sample Accuracy**  
NABL Certified Labs

**Free Home Collection**  
Door-to-Door Pickup

**Expert Doctors**  
Across India

**750+ Lab Tests**  
Trusted & Reliable
