Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Same Day

Specimen Required: Blood

Price- ₹850 **₹499**

Parameters Included

About This Test

The Widal test and Typhi Dot rapid test measure antibodies in the blood to detect infection with *Salmonella typhi*, the bacteria causing typhoid fever. The Widal test measures agglutinating antibodies against O and H antigens of *S. typhi*, indicating an active or recent infection. The Typhi Dot test detects IgM and IgG antibodies, providing a quicker diagnosis. Both tests help identify typhoid fever but vary in accuracy and are often used alongside clinical evaluation and other diagnostic methods.
