# ADVANCE LIPID PROFILE

Profile Details | 4 Parameters

Fasting: overnight fasting for 9-12 hours | Report Time: Same Day

**Specimen Required:** Blood

**Price-** ~~₹2800~~ **₹1690**

## Parameters Included

- LIPID Profile
- APOLIPOPROTEIN A1-APO A1
- APOLIPOPROTEIN B - APO B
- Apolipoprotein B/A1 Ratio Apolipoprotein B and A1

## About This Test

Here's a summary of what each component measures in the context of cardiovascular health: 1. **Apolipoprotein A (Apo A)**: Measures levels of HDL cholesterol, indicating protective effects against heart disease. 2. **Apolipoprotein B (Apo B)**: Measures levels of LDL cholesterol and other atherogenic particles, reflecting cardiovascular disease risk. 3. **Apolipoprotein A1/B Ratio**: Assesses the balance between protective (Apo A1) and harmful (Apo B) lipoproteins, providing insights into cardiovascular risk. 4. **Lipid Profile**: Includes total cholesterol, LDL, HDL, and triglycerides, offering a comprehensive overview of lipid levels and cardiovascular health risk. Together, these measurements help evaluate lipid metabolism and cardiovascular disease risk.
