

ALKALINE PHOSPHOTASE & PROTEIN

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Same day

Specimen Required: Blood

Price- ₹580 **₹330**

Parameters Included

About This Test

****Alkaline Phosphatase (ALP):**** ALP is an enzyme found in various tissues, especially the liver, bones, and bile ducts. Elevated ALP levels can indicate liver disease, bone disorders, or bile duct obstruction. Low levels might suggest malnutrition or certain genetic conditions. ****Protein:**** Total protein test measures the amount of protein in the blood, including albumin and globulin. It helps assess nutritional status, liver and kidney function, and various medical conditions. Abnormal protein levels can indicate liver disease, kidney disease, or inflammatory conditions. These tests are crucial for diagnosing and monitoring various health conditions.
