AMA- ANTI MITOCHONDRIAL ANTIBODIES ELISA

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Within 4 Days

Specimen Required: Blood

Price- ~~₹2000~~ **₹1390**

Parameters Included

About This Test

An AMA (Antimitochondrial Antibodies) test measures the presence of antibodies directed against mitochondria in the blood. These antibodies are typically associated wit primary biliary cholangitis (PBC), an autoimmune liver disease that leads to the destruction of bile ducts. Elevated AMA levels indicate an autoimmune response targeting the mitochondria within liver cells, helping diagnose PBC. The test aids in early detection, diagnosis, and monitoring of the disease, guiding appropriate treatment and management strategies for affected individuals.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable
