

## ANTI GBM- (ANTI-GLOMERULAR BASEMENT MEMBRANE)

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Same Day

**Specimen Required:** Blood

**Price- ₹2900 ₹1870**

### Parameters Included

#### About This Test

The anti-GBM (anti-glomerular basement membrane) antibody test measures the presence of antibodies targeting the glomerular basement membrane in the kidneys. These antibodies are associated with autoimmune diseases, particularly Goodpasture's syndrome, where the immune system attacks the kidneys and lungs. Elevated levels of anti-GBM antibodies indicate an autoimmune reaction that can lead to rapidly progressive glomerulonephritis and lung hemorrhage. The test is crucial for diagnosing and managing conditions involving this autoimmune response.
