

ANTI TG & ANTI TPO - ANTI THYROID ANTIBODIES PANEL

Profile Details | 1 Parameters

Fasting: Fasting not mandatory | Report Time: Same day repoy

Specimen Required: Blood

Price- ₹2799 **₹1399**

Parameters Included

About This Test

Anti-TG (anti-thyroglobulin antibodies) and anti-TPO (anti-thyroid peroxidase antibodies) are immune proteins that target proteins in the thyroid gland. Elevated levels of these antibodies in the blood indicate autoimmune thyroid diseases such as Hashimoto's thyroiditis and Graves' disease. They are crucial for diagnosing these conditions and monitoring disease activity. Anti-TG targets thyroglobulin, a protein involved in thyroid hormone production, while anti-TPO targets thyroid peroxidase, an enzyme essential for thyroid hormone synthesis.
