CALCIUM SERUM

Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Same Day

Specimen Required: Blood

Price- ~~₹350~~ **₹199**

Parameters Included

About This Test

A calcium measurement typically refers to the amount of calcium in the blood. Calcium is vital for various bodily functions, including bone health, muscle contraction, and nerve signaling. Blood calcium levels can be measured through a test that includes both total calcium (which measures both free and bound calcium) and ionized calcium (which measures the free, active form). Abnormal levels can indicate various conditions, such as parathyroid issues, kidney disease, or vitamin D deficiencies.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable

**Fasting 10–12 hrs essential | *Limited Period Offer | *Reports within Same Day*
