COMPREHENSIVE FEVER PANEL

Profile Details | 11 Parameters

Fasting: Fasting is not mandatory | Report Time: Same Day

Specimen Required: Blood, Urine

Price- ~~₹5200~~ **₹3499**

Parameters Included

- CBC
- LFT- Liver Function Test
- Urine R/M or Urine Analysis
- ESR - Erythrocyte Sedimentation Rate
- Widal
- Malaria
- TYPHOID
- DENGUE PROFILE
- CRP, C-Reactive Protein
- CHIKUNGUNYA
- BLOOD CULTURE

About This Test

When treating fever, doctors focus on alleviating symptoms and addressing the underlying cause. Antipyretics like acetaminophen (Tylenol) or ibuprofen (Advil) are commonly prescribed to reduce fever and relieve discomfort. Dosage is based on the patient's age, weight, and the severity of the fever. Hydration is critical, as fever can lead to dehydration, so patients are encouraged to drink fluids regularly. In cases where the fever is caused by bacterial infections, antibiotics are prescribed, while antiviral medications may be used for viral infections. If the fever is due to inflammation or an autoimmune disorder, corticosteroids or other immunosuppressive medications might be needed. Mild fevers can be managed with over-the-counter treatments and rest, but persistent or high fevers (above 103°F/39.4°C) require medical attention, particularly in infants, the elderly

98% On-Time Reports	100% Sample Accuracy	Free Home Collection	Expert Doctors	750+ Lab Tests
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable

**Fasting 10–12 hrs essential | *Limited Period Offer | *Reports within Same Day*
