About This Test

' Early Pregnancy Health package offering designed to keep the well-being of both mother and baby in mind. This all-inclusive package analyses 62 essential parameters, including complete blood count, blood sugar, thyroid, HbA1c, HIV, Rubella, and RPR. By bringing the convenience of testing to your doorstep, These tests play a pivotal ro in safeguarding the health of expectant mothers and their unborn babies. Monitoring parameters like blood sugar and thyroid levels helps identify and manage potential complications early on, ensuring a healthier pregnancy journey. Assessing markers such as HIV, Rubella, and RPR is vital for the prevention and early detection of infections that could impact both maternal and fetal well-being.
