HEPATITIS B ENVELOPE ANTIBODY- ANTI HBE QUANTITATIVE

Profile Details | 1 Parameters

Fasting: Fasting is not Mandatory | Report Time: Same Day

Specimen Required: Blood

Price- ~~₹1500~~ **₹790**

Parameters Included

About This Test

A Hepatitis B envelope quantitative test measures the concentration of Hepatitis B e-antigen (HBeAg) in the blood. HBeAg is a protein produced by the Hepatitis B virus that indicates active viral replication and high infectivity. Elevated levels of HBeAg suggest a high level of viral activity, while low or undetectable levels may indicate reduced viral replication or response to treatment. This test helps evaluate the severity of Hepatitis B infection, monitor treatment effectiveness, and guide clinical decisions.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable
