LDL CHOLESTEROL

Profile Details | 1 Parameters

Fasting: Overnight fasting for 9-12 hours | Report Time: Same Day

Specimen Required: Blood

Price- ~~₹250~~ **₹160**

Parameters Included

About This Test

LDL cholesterol measures the concentration of low-density lipoprotein (LDL) in the blood. LDL is often called "bad" cholesterol because high levels can lead to the buildup of plaque in arterial walls, contributing to atherosclerosis, which increases the risk of heart disease, heart attacks, and strokes. Assessing LDL cholesterol levels helps evaluate cardiovascular risk and guide treatment strategies, including lifestyle changes and medications, to manage and reduce the risk of heart-related conditions.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable

**Fasting 10–12 hrs essential | *Limited Period Offer | *Reports within Same Day*
