Profile Details | 1 Parameters

Fasting: Fasting is not mandatory | Report Time: Within 7 Days

Specimen Required: Blood

Price- ~~₹2800~~ **₹1549**

Parameters Included

About This Test

The Leishmania IgG antibodies test measures the concentration of IgG antibodies against the *Leishmania* parasite in the blood. These antibodies are produced by the immune system in response to infection with *Leishmania*, which causes leishmaniasis. Elevated levels of IgG antibodies indicate exposure to or an active infection with *Leishmania*. This test is used to diagnose leishmaniasis, differentiate it from other diseases, and monitor treatment response. It is particularly useful in regions where leishmaniasis is endemic.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable
