About This Test

A lipoprotein test measures the levels of lipoproteins in the blood. Lipoproteins are molecules that transport cholesterol and triglycerides through the bloodstream. This te
typically includes measurements of low-density lipoprotein (LDL), high-density lipoprotein (HDL), and sometimes very low-density lipoprotein (VLDL). It helps assess the ri
of cardiovascular diseases, such as heart disease and stroke, by evaluating cholesterol levels and their distribution within different types of lipoproteins.

98% On-Time Reports	**100% Sample Accuracy**	**Free Home Collection**	**Expert Doctors**	**750+ Lab Tests**
Available 24×7	NABL Certified Labs	Door-to-Door Pickup	Across India	Trusted & Reliable
