

METABOLIC SCREEN COMPREHENSIVE

Profile Details | 1 Parameters

Fasting: Overnight Fasting for 9-12 hours | Report Time: Same Day

Specimen Required: Blood

Price- ₹3700 **₹1895**

Parameters Included

About This Test

A comprehensive metabolic screen measures levels of various substances in the blood to assess overall health and detect diseases. It typically includes glucose, calcium, electrolytes (sodium, potassium, chloride, bicarbonate), kidney function markers (BUN, creatinine), liver enzymes (ALT, AST, ALP), total protein, albumin, and bilirubin. This test helps evaluate metabolic function, electrolyte balance, kidney and liver health, and can identify conditions like diabetes, liver disease, and kidney disorders.
