

# PROTEIN C

Profile Details | 1 Parameters

Fasting: Overnight fasting for 9-12 hours | Report Time: Within 2 Days

**Specimen Required:** Blood

Price- ₹5500 **₹2950**

## Parameters Included

### About This Test

A protein C test measures the level and activity of protein C in the blood. Protein C is a natural anticoagulant that helps regulate blood clotting by inactivating factors Va and VIIIa. Deficiency or dysfunction of protein C can lead to an increased risk of abnormal blood clots (thrombosis), such as deep vein thrombosis or pulmonary embolism. The test is crucial for diagnosing inherited or acquired clotting disorders and guiding appropriate anticoagulant therapy.
