# STD PANEL 3

Profile Details | 6 Parameters

Fasting: Fasting is not mandatory | Report Time: Next Day

**Specimen Required:** Blood

**Price-** ~~₹4500~~ **₹2499**

## Parameters Included

- HBsAg- Hepatitis B Surface Antigen ( Rapid )
- Hepatitis C Virus ( HCV Rapid )- Total Antibodies
- TPHA with Titer - Treponema Pallidum Hemagglutinat...
- HIV 1 & 2 Rapid Test - ( Human Immunodeficiency...
- VDRL Titer- RPR for Syphilis -Quantitative
- HSV-I & II IgG & IgM Antibodies

## About This Test

HIV (Human Immunodeficiency Virus) is a virus that attacks the immune system, especially CD4 cells, and can lead to AIDS if untreated. HBsAg (Hepatitis B Surface Antigen) detects active Hepatitis B infection and indicates that the person can transmit the virus. HCV (Hepatitis C Virus) testing identifies infection that mainly affects the liver and may become chronic. VDRL (Venereal Disease Research Laboratory) is a screening test for syphilis that detects antibodies related to the infection. HSV (Herpes Simplex Virus) testing identifies herpes infections, commonly causing oral or genital sores. TPHA (Treponema Pallidum Hemagglutination Assay) is a confirmatory test for syphilis, used to verify VDRL results.
