About This Test

The Total Health Platinum Package is an advanced and all-inclusive health check-up designed for complete body assessment and preventive care. This package includes CBC and ESR to evaluate blood health, anemia, and infections. LFT and KFT assess liver and kidney function, while the Lipid Profile helps analyze cholesterol levels and cardiac risk. TFT checks thyroid balance, and FBS with HbA1c monitors current and long-term blood sugar control. Nutritional status is covered through Iron Profile, Vitamin B12, and Vitamin D3, essential for energy, nerve function, immunity, and bone health. CRP and hsCRP detect inflammation and cardiovascular risk, and IgE helps identify allergies. Amylase and Lipase evaluate pancreatic health. The package also includes HIV, HBsAg, and HCV for viral infection screening, Cortisol for stress and hormonal balance, and Homocysteine to assess heart and vascular health risk. Ideal for comprehensive preventive health monitoring.
